#### ITALIAN CABINET RESIGNS.

[By Associated Press.]  
London, May 14.—The Italian Cabinet has resigned.

"The Council of Ministers," says Reuter's Rome correspondent, "considering that it did not possess the unanimous consent of the constitutional parties regarding its international policy which the gravity of the situation demands, has decided to hand its resignation to the King. An official note to this effect was issued last night."

"The King has reserved his decision as to whether the resignation will be accepted."

Rome, May 14.—The Italian King has not yet acted on the resignations last night of the Italian Cabinet. Today he conferred with the leaders of the great Italian parties. Among the possible results is said to be the formation of a National Cabinet composed of all parties, such as that conducting the war for France.

#### STATEMENTS AGREE FIRST TIME

[By Associated Press.]  
London, May 14.—For the first time in six months the German and French official statements agree today. The Germans admit the truth of Joffre's most important claims of the

French successes between La Bassée and Arras to the northward.

The British are doing little more than holding their own, but are keeping busy the great masses of Germans.

#### FRENCH SUCCESS IN THE AISNE VALLEY

[By Associated Press.]  
Paris, May 14.—(Official).—Despite the rainy night the French occupied several more German trenches southwest of Souchez last night. In the Aisne valley the French artillery destroyed four German block houses and leveled several trenches.

[By Associated Press.]  
Blythe, England, May 14.—The captain of the steamer Collairnie, arriving here today, reports that he believes he sank a German submarine in the North Sea, off the Northumberland coast. He saw no submarine, but the ship struck a submerged obstacle. Subsequently large quantities of oil appeared on the surface.

### PRESIDENT DEMANDS OUR RIGHTS ON SEA

Note Emphasizes Opposition to Use of Submarines as Commerce Destroyers at Cost of Lives.

[By Associated Press.]  
Washington, May 14.—Two outstanding points of President Wilson's note to Germany are: A firm call upon Germany to disavow as hers the acts of her submarine commanders in torpedoing the Lusitania and the Gulf light, and a declaration that the United States opposes the use of the submarine as a commerce destroyer. The United States says it is practically impossible to use the submarine to destroy merchantmen without disregarding innocent lives. Officials here believe that this means that the United States intends in the future to have an international conference and try to eliminate the use of the submarine against merchantmen.

#### American Papers Praise the Note.

[By Associated Press.]  
Chicago, Ill., May 14.—Editorial comment of the American newspapers on President Wilson's note gives almost unstinted praise and approbation. The German-American papers mostly regret that the note seems to disregard Germany's contention that England is unlawfully trying to starve Germany. Some German papers comment sharply and criticize the note.

#### German-Americans Loyal to U. S.

[By Associated Press.]  
Chicago, Ill., May 14.—Although criticizing more freely than American papers, the German-American editorials also discuss the possibility of war with Germany more frankly. While the German papers do not predict war, they seem unanimous in the opinion that German-Americans would fight loyally for the United States.

The New York American says: "The President's letter is undeniably vigorous, but it is possibly dangerous as well."

The American thinks his note went so far as to invite a rebuff from Germany.

#### Arkansas Governor With President.
